

Welcome to the Paris School District. It is my hope that you find our website useful and informative about our district. What you will find is a wonderful school district, complete with great students, committed faculty and staff, involved parents, a great school board, and community involvement that continues to increase every year. The goal of everyone is a commitment to student achievement and creating an environment that facilitates success for all students.

The Paris School District encourages participation in our school system. There are ample opportunities to mentor, be a WATCH D.O.G., volunteer, and to support our school system. I encourage you to visit with any employee, faculty or staff about our schools. We have a highly successful academic program, creative arts that facilitate student's artistic and musical abilities, competitive and successful athletics, and very popular elective classes that promote involvement in activities. Anyone is welcome to visit our schools, attend concerts, sporting events, and programs that our students are involved in. There are many opportunities and I hope that you take advantage of each of them.

Any community is only as good as their schools. Paris has strong traditions that are rooted in hard work that perpetuates success. Come be a part of our success.

Sincerely:

R. Wayne Fawcett, Superintendent
